experience

Scout Studio | *Scout Labs Director*
Boston MA | Aug 2017 - present

o   Managing an interdisciplinary team of four students that use design thinking to tackle social issues in the Boston area

o   Working with the client to design and build a site that uses storytelling to connect people across different communities

o   Recruited the client, selected the team and prepared the project timeline

Datawheel | *Web Developer Intern*
Cambridge MA | Jan 2017 - June 2017

o   Lead Developer on Macro Market, a web application allowing companies to list themselves under the products and countries they export to

o   Developed features such as user authentication, admin settings and search using React, Node.js and PostgreSQL

o   Assisted with the deployment of the site using Amazon Web Services

Scout Studio | *Designer & Developer*
Boston MA | Sept 2016 - Dec 2016

o   Worked on small team in 2 week sprints to design and develop the front end for a social e-commerce app using AngularJs and Ionic

o   Participated in weekly meetings with the client to go over existing research and user testing as well as defining brand, personas and user testing questions

o   Attend Scout events such as design workshops, talks and critiques

Huntington News | *Web Developer & Designer*
Boston, MA | Jan 2016 - Dec 2016

o   Created a new design for the newspaper's website and implemented the design by developing a custom Wordpress theme

o   Built custom plugins and widgets using PHP to improve the site's usability for its editors

o   Maintained the site, provided technical support, and monitored engagement using Google Analytics

Continuum Managed Services | *Web Development Intern*
Boston MA | Jan 2016 - Aug 2016

o   Developed the new homepage, product pages and navigation menu for Continuum's website redesign using HTML/CSS and JavaScript

o   Updated and maintained current webpages, landing pages and custom modules using HubSpot CMS
